

## Weed Science Society of Serbia

### XII Weeds Science Congress and symposium on herbicides and growth regulators

#### FIRST NOTICE AND CALL FOR THE SUBMISSION OF ABSTRACTS

Veliko Gradište, Srebrno jezero  
23-26. September 2024. godine

Dear Colleagues,

The Weed Science Society of Serbia, in an effort to follow the development of weed science as a very dynamic discipline, preserved the long tradition of organizing congresses on weeds. On behalf of the organizational and scientific-expert committee, as well as the Weed Science Society of Serbia, we invite you to take part in the work of the XII Weeds Science Congress and symposium on herbicides and growth regulators, which will be held from 23-26. September 2024 in the beautiful surroundings of Silver Lake. Common to congresses on weeds is the effort of members of the Weed Science Society of Serbia, other domestic and foreign participants to professionally present the latest scientific results and exchange experience in the field of studying and controlling weeds, as well as professional papers on herbicides and growth regulators. And this time, we expect plenary lectures by invitation, oral and poster presentations by eminent foreign and domestic lecturers within thematic sections designed to bring together and encourage more active participation of all meeting participants in the best possible way. Also, the program will include an attractive excursion aimed at getting to know the tourist potential of Veliko Gradište, cultural heritage, quality wines, etc. We invite you to contribute to the successful work of the congress with your participation.
